Subject: Notice of Upcoming Topographic Survey

Dear Resident,

The City of Waukon is writing to inform you about upcoming survey activities that will take place in your neighborhood. The City is working with MSA Professional Services to begin engineering design for the planned reconstruction of 1st St NE from Main St to the County Fairgrounds. There are additional improvements along 1St Ave NE from Allamakee St to 1st St NE, 2nd Ave NE from 1st St NE to 4th St NE, 5th Ave NE from Allamakee St to 1st St NE, 6th Ave NE from Allamakee to 1st St NE, and storm sewer and sanitary sewer that runs through multiple backyards of properties located west of 1st St NE. The survey data collection is the first step in the process for the much-needed replacement of the street and aging utilities.

The survey work is scheduled to begin on October 19th and is expected to continue through November 13th; however, the schedule is subject to change and is dependent on favorable weather. During the survey work, residents may notice:

- MSA survey truck parked in the neighborhood
- MSA survey staff working along and in the street corridor collecting data
- Stakes with pink flagging marking control points and benchmarks, please leave those in place if possible
- Painting and flagging marking existing public and private underground utilities, please leave flagging in place until after the survey is completed
- Minor spade digging to attempt to locate property pins to establish the existing right-of-way and property lines
- MSA staff will need to collect survey data along each driveway, up to and including the building corners of your home so it should be expected to see them approach the exterior of your residence at some point during the survey

Please use caution when driving vehicles around survey personnel and equipment.

Note that access to each residence will remain available at all times.

If you have questions or concerns, please contact City Engineer Jake Huck (MSA) at (563) 584-2885 or Waukon City Manager Grayson Rowlet at (563) 568-3491.

Thank you

City of Waukon
